### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Christophe Lair (Reg. No. 54,248) on 5/19/2005.

The application has been amended as follows:

In claim **12**, on line 13, replace phrase "the result" with --a result--.

In claim **12**, on line 16, replace phrase "said indication" with --an indication--.

In claim **12**, on line 18, delete the word "the" before the word "instructions".

### ***Allowable Subject Matter***

2. Claims **2, 4-9, 12-16, 18-21, and 24-27** (*renumbered 1-20*) are allowed.

3. The following is an examiner's statement of reasons for allowance:

Regarding claim **4**, Miller et al. (U.S. 6,421,707) teaches a method for delivering messages of at least two different content types through a message service center.

Miller et al. fails to teach the message service center determining a first condition defining the content type or types of a message and/or a maximum size of a message to be sent directly to a terminal, checking this first condition, and either directly sending the message or informing the terminal about the message based on the result of the check.

Art Unit: 2666

Regarding claims **2, 5-9, 24, and 25**, these claims are further limiting to claim **4** and are thus also allowable over the prior art of record.

Regarding claim **12**, Miller et al. (U.S. 6,421,707) teaches a system for delivering messages of at least two different content types through a message service center. Miller et al. fails to teach the message service center determining a first condition defining the content type or types of a message and/or a maximum size of a message to be sent directly to a terminal, checking this first condition, and either directly sending the message or informing the terminal about the message based on the result of the check.

Regarding claims **13-15**, these claims are further limiting to claim **12** and are thus also allowable over the prior art of record.

Regarding claim **20**, Miller et al. (U.S. 6,421,707) teaches a message service center for receiving messages of at least two different content types. Miller et al. fails to teach application means for determining a first condition defining the content type or types of a message and/or a maximum size of a message to be sent directly to a terminal, checking this first condition, and either directly sending the message or informing the terminal about the message based on the result of the check.

Regarding claims **16, 18, and 19**, these claims are further limiting to claim **20** and are thus also allowable over the prior art of record.

Regarding claim **21**, Miller et al. (U.S. 6,421,707) teaches a mobile station for receiving messages. Miller et al. fails to teach the mobile station being configured to

determine a first condition defining the content type or types of a message and/or a maximum size of a message to be sent directly to the mobile station.

Regarding claims **26 and 27**, these claims are further limiting to claim **21** and are thus also allowable over the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
